GUILELMO L. B. DE HUMBOLDT

LEGATIS.

Vergleichende Wortverzeichnisse mehrerer Sprachen Amerika's, vorzüglich Nordamerika's.

In diesem Bande habe ich vorzüglich die amerikanischen Wortverzeichnisse ~~von~~ Wilh. v. Humboldt's vereinigt, die unsern Kenntniss der Sprachen zusammenstellen. Die einzelnen Blätter sind von Duponceau für Vater gesammelten Abzügen aus verschiedenen Wörterbüchern, die von Heckewelder verfasst oder in seinem Namen gesammelt sind. Mehrere sind, wenn ich sie nicht irre, aus Barton's Sammlung entnommen. Es sind 42 Blätter, die folgenden Inhalt haben:

1) Blatt 1–2 — Barton's Vaterunser von 70 Wörtern in der Abnaki- (auch Rustes), Massachusetts- (auch Eliot) und Penobscot-Sprache, zusammengestellt von Pickering für Wilh. v. Humb.

2) Bl. 3–4 — Brief von Lieber an W. v. Humb. d.d. Boston 1832

3) Bl. 6–9 — Wortverzeichniss der Algonkin- und Delaware-Sprache, (Dupon.) aus Heckewelder gezogen von Du Ponceau

4) Bl. 10. 12. — Wörter verschiedener Sprachen mit vielen Lücken und grösstentheils unrichtig, meist von Klaproth's Hand; an W. v. Humb. geschickt, mit einem Briefe Kl.'s an diesen d.d. 18 von J. 1822 auf Bl. 11.

5) Bl. 13–15 — Cherokee-Choctaw Wortverzeichniss von Benj. Hawkins, abgedruckt von Du Ponceau

6) Bl. 17–24 — Wortverzeichniss des Muskohge (oder Creek), Chickasaw, Choctaw und östlichen Cherokee, mit einigen Wörtern der alten Indianer von Koosa, verfasst von Benj. Hawkins, abgedruckt von Du Ponceau

verte!

7, Bl. 25–28 — Wörterverzeichniß der Delaware, Mirsi, Mohegan, Natick (oder Massachusetts), Chippeway, Shawano und Nanticok, aus einer Heckew. handschrift abgezogen von Du Ponceau

8, Bl. 29–36 — Spanisch-Lieb-Guarani-Wörterverzeichniß, Abschrift (mit aus der Hervas Vergleich), die Ueb. v. Humboldt aus Rom erhielt

9, Bl. 37–39 — Miami (oder Twechtwe)- und Delaware-Wörterverzeichniß, aus Volney's Wörterbuch ausgezogen von Du Ponceau.

10, Bl. 41–42 — Nanticok-Chippeway-Wörterbuch, einer handschr. aus Heckewelder's abgeschrieben von Du Ponceau.

Euer Excellenz

Nehmen ich mir die Freiheit anzuzeigen, daß Herr in der heutigen Sitzung der Americanischen Akademie der Wissenschaften — die Einsicht über den gewünschten Namen? Gibbs sey nach Königs die Krone über meine als ein Million deutscher Gelehrten; und um deutsche sind die meisten Namen der Mitmenschen sicher sey ebenso wichtig als das wünschende, wollen daß der festgesetzte Preis — einstimmig beschlossen, das Lexicon des Ludwig Sebastian Rabes, um deutsche seit 17½ Jahrhunderte ausgearbeitet, und jetzt in der Bibliothek zu Cambridge (Massachusetts) befindlich, in den Memoiren der Akademie zu drucken. Es ist das einzige Werk, so wichtig, das uns über die Akademie-Sprache Aufschluß gibt. Der beifolgende Probebogen wird Ihnen zeigen, wie unbedeutend Ihnen, so hoffe ich wenigstens, der

Abdruck der ganzen Manuskripte sein wird. Ich weiß allerdings, daß Ihnen die beigebrachten Lesarten selbst nur geringes Interesse sein können, aber wie wenig ab sollten ist nie genau und sorgfältig genug, selbst in den kleinsten Dingen, schon Ihnen die wissenschaftliche Ausbeute möglichst leicht machen. Ihr Band enthält Manuscripte von großer, theils wenig bekannten ist es mir gewichtig erschienen, die Lesarten der Abdrucke beizufügen. Wenn ich zu viel von einer so geringen Sache mache, so mögen sie als gütigst mit dem großen Interesse, das ich an allen Handschriften nehme, im allgemeinen, und mit der großen Verehrung, die ich für den Mann habe, in besonderen entschuldigen.

Schon vor zwei oder drei Jahren schrieb ich Ihnen meine Meinung, daß selbst die Berliner Bibliothek so mannichfache Schätze besitzen, man sei über sie noch nicht hinlänglich unterrichtet. Ich glaubte, daß wohl auch immer die Umstände davon waren, die mich mein Vaterland zu verlassen nöthigten, man wisse da-

gegen haben würde, dass ich mich in meine Schuld
schriftlich mussten; und wie würde es immer ein
grosses Vergnügen gewähren mich der entgegenkommenden
Gefälligkeit dankbar zu bezeugen, selbst in einem so
individuellen Falle, als dieser sein würde. Es ist ein
Unterwerfen welchem Leben so ist Ihre Güte viel-
leicht gerechtfertigt gegangen, für welchen Fall
ich Sie wieder meine Dienste anbiete. Sie selbst
mein Gefälligkeit irgend eine Art wünschen, und
so mein Dienst die Ihnen nicht leicht bezeigen
könnte, und die ich zu haben fähig wäre, so selle
mein mich immer bereit finden. Ich mache diese Be-
merkung besonders da Sie Ihnen seinen Augen-
blick zu weit keinen diplomatischen Angestellten
bei Sie hat.

Mit ganz vorzüglicher Hochachtung und Ge-
genheit

Ihre Excellenz

ganz ergebenster Diener

Copied from a M.S. of the Rev.d John Heckerwelder.

This copy is literal, where the words in the original are written in German, they have been so copied. The explanation of some words in English or German is left blank, & is not given, probably the Rev.d Author meant to have filled it up, but forgot it.

Monsieur le Baron

Comme Vous Vous proposez d'envoyer à Monsieur votre frère, les mots Brasilien, comparés aux langues de l'Europe et de l'Asie, je Vous prie de bien vouloir y corriger une petite mepris, car dans la langue des Kamares civilisés, j'ai mis

Hund, iake Inguschisch im Kaukas. kat.

au lieu de

Hund, iake, Tscherkessisch kag.

Je joint à ces lignes une comparaison de la langue Tschuktche orientale, avec le Grönlandais, qui est très-curieuse et qui demontre l'identité de ces deux peuplades.

J'ai seulement besoin pour huit jours des volumes 3, 5, 9 et 10 des Asiatic Researches

Auriez Vous la bonté de le prendre pour moi à l'Institut.

Je serais aussi curieux de revoir le livre de Mr. Vater sur l'affinité des langues de l'amerique avec celles de l'ancien continent.

Je Vous renvoie le Ritter et je Vous prie d'agréer les sentiments inaltérables de

Votre
très humble et très obéissant serviteur
H. W. Klaproth

18 avril 1822.

Ci-joint Ritters Vorhalle.

Sand awon — Armenisch awas
Blut inreu — Andisch im Kaukas inrea

Sprache der civilisirten Kamaku, bei den Portugiesen Meniangs.

Baum hi — Georgisch ha Motonisch an Altai hä.
Fleisch kione — Awarisch-Lezghisch chian, han.
Zahn io — Chines. iä
Hund iake — Ingushisch im Kaukas. hax
Wasser sein — Kasi Kumuk im Kaukas. sein

Kraut osso — Ossetisch im Kaukas. chos, choasa
Mond ie — Türk.-Tatar. aï
Regen sri — Albanisch sri.
Salz schuki — Samojedisch schax, scheax.
Sonne schioi — Chinesisch shi.

Aus diesen Vergleichungen ist wahrscheinlich keine weitere Consequenz zu ziehen, aber sie sind doch merkwürdig.

A Comparative Vocabulary of the Muskogee or Creek, Chickasaw, Choktaw, and in part of the Cherokee Languages, with some words in the languages of the old Indians of Noowa. By the late Col. Benjamin Hawkins, late Agent of the United States to the Creek nation, and by him communicated to Mr. Jefferson.

Note.

g. is always hard in the Creek language.
ā. has the sound of a in Chārcoal or charge, in other respects the letters are sounded according to the English Alphabet.

Dr. Vater is requested, if he shall print or insert in any of his future Works any part of this or of any other Vocabulary communicated to him by permission of the American Philadelphical Society, to explain the Indian Words in English as well as German, that those in this country who do not understand the German language, may profit by the publication.

A Comparative Vocabulary of the

Lenni Lenape or Delaware (Unami Dialect) the Minsi or Monsey Dialect of the same, the Mahi-canni, Mohican, Mohegan or Muhhikanneew, the Natik or Nadik, the Chippuwa or Chippeway the Shawano or Shawanese, and the Nanticok languages.

By the Revd John Heckewelder. Copied from his M. S.

I do not know the meaning of the Letters S. & C. affixed to same words, I presume they mean S. Shawano and C. Chippeway. T. S. Z.

Vom Verfasser der Gesellschaft in Philadelphia Duponceau Esq Prof. Vater. mitgetheilt.

The mind	Atchipaia*	Tschilscank the soul in men
Spirit or Soul.		Tschipey, a Spirit, Ghost

* Atchipaia & the Delaware Word Tschipey, have one and the same signification, and are of those words not easily come at or understood by any white person, except he dwel for a length of time among them (the Indians) and has opportunities of hearing them discourse on the subject, and get a sight of their drawings, which now and then, one or the other will

will make, to give the matter a lively representation. The soul or Spirit in men, which in the language of the Lennape is called "Tschilschank" and in the Mahiuanni Language "Tschil, schaak" is considered as a living, active something in man. a something, which regulates the mind, animates the whole Body, to point out what he is to do. This active body (say they) can, not die if even the body dieth, but is transported to another place, where it is again useful, and lives in many enjoyments, especially if the same had conducted itself, while in the body, on the Earth, to the satisfaction of the good and great Spirit – had urged the body in which it dwelt, to good acts as offering sacrifices – being hospitable, kind and benevolent &c.

The words "Atchipaia," in Mia, mi, and "Tschipey" in Delaware for Spirit have a different meaning and allude to Ghosts or Gespenster as the Germans term it. which are not considered as useful towards any thing that is good, neither are permitted to enjoy any pleasures, but are confined to "Chipeyhacki." (the name of the place, and which answers to the German word Gespensterreich) there to dwell in poverty, stagger about, and frighten one another. Murderers, Thieves, those who in this world

neglect

neglected making or attending the
sacrifices devoted to the great spirit—
were ungrateful for all those benefices,
which he bestowed to the great Spirit—
were ungrateful for all those benefices,
which he bestowed to the Indians—were
neither hospitable nor kind to their
fellow Creatures while living on Earth,
those all such (say they) become trans,
formed from the true shape of man
into Spectres, not resembling man
but similar to a Skeleton, and which,
when they mark them down, appear
to be nothing but skin and bones,
the legs long and no thicker than
a broom Stick, the body a small
round spot, the back or shoulder bone
Sticking out at the shoulders, and the
head (miserable to appearence) pro,
jecting forward &c.

Neither can I well admit of such
interpretations as sometimes are brought
forward, which express the words "The
master of light"—"He who made us" &c
as correct. never once had I heard
an Indian express himself thus.
neither have they the word "Master,"
in their language. Such a word
would be too high toned for an entirely
Independant people to have in
use, which again it would not be
high or elevating enough for a
Deity. The words Author, Creator
Manitto, which latter word indica,
tes

tes an all powerfull being, supreme
to any other are those they sue.
they also distinguish betweend making
and Creating, the first is a word done
with hands, and the last by Power,
to make any thing with the hands,
is "Manitou" to Create, Cause to be,
is Gischatendaman. "Gischelemuk,
quank, is, our Creator. Gischelen-
damen is, to cause to be. We, in-
deed make use of the word Maker
in the same sense as Creator, and
Leisberger has on this account
placed this with that of Creator
to their word for us to anderstand,
but in their language, it would
not do, to misplace these words.
