

2494

The image shows the front cover of an antique book. The spine, on the left, and the corners, on the right, are bound in a dark reddish-brown leather. The central portion of the cover is decorated with marbled paper featuring a dense, intricate pattern of irregular, organic shapes in various shades of brown, tan, and black, resembling a stone or biological texture. The number '2494' is printed in a light, possibly gold or silver, color on the leather spine.

[Faint, illegible text, possibly bleed-through from the reverse side of the page. The text is arranged in several lines and is significantly obscured by water damage.]

Interpretatio eorum que almanach veterum  
 motuum planetarum inquam solum de motu  
 regio miscuitur astronomia studij usque  
 matorum. P. inquam Iohannem Glogovium  
 pro unio in aucte stellarum institutione  
 ad laudem dei uniusit qz me Cuacten  
 famam et glam inquit foeliciter

Secundum primum de his quorum cognitio  
 presupponitur ante interpretatio eorum  
 que in almanach veterum motuum docet

**Consideratio prima**

Inquit inquit Johannes Glogovius in tractatu suo  
 de motu planetarum apponit quatuor species motuum  
 videlicet motum rectum, motum retrogradum, motum  
 motum in motu, et motum in motu. Et dicitur  
 motus rectus quando planeta movetur a signo  
 ad signum, et motus retrogradus quando movetur  
 a signo ad signum. Et motus in motu quando  
 planeta movetur a signo ad signum, et motus  
 in motu quando planeta movetur a signo ad  
 signum. Et motus in motu quando planeta  
 movetur a signo ad signum, et motus in motu  
 quando planeta movetur a signo ad signum.

W. Juv.  
 2494.

**Secunda**

**Consideratio**

Secunda consideratio est de motu planetarum  
 in almanach veterum. Et dicitur motus  
 motus in motu, et motus in motu. Et motus  
 in motu quando planeta movetur a signo ad  
 signum, et motus in motu quando planeta  
 movetur a signo ad signum. Et motus in motu  
 quando planeta movetur a signo ad signum.

Luna ad meridiem vulgaris mensurae et in interu ad 2  
 quibusque quattuor mensuris. 10. interu in tabella sine tra  
 dy quibusque a ad mensuras almanachis expe in die sibi  
 Nudat. qui est de gibus 74 interu sibi. 8. 9. 10. 11. 12.  
 ita ut sibi mensuras motus hinc ad meridianum vulgaris  
 cum sibi est dicitur in motu nisi in remota civitate  
 dicitur de 8. gibus. Et interu **Consideratio tertia**  
 In motu lune hanc quatuor a deturam per interu  
 03. Et meliora rationibus ita prouidet. Similis similitudo  
 quatuor mensuras. et dicitur uerum et aliam uerum in quatuor  
 mensuras ut hinc uerum uerum in hanc. In aliis interu sibi  
 uerum interu quatuor uerum ut in est quatuor mensuras. et motus  
 non ita uerum est ut in interu mensuras.

Com planeta nomen  
est quod dicitur in  
astrologia  
et dicitur quod  
planeta sunt in  
caelestibus sphaeris  
et dicitur quod  
planeta sunt in  
caelestibus sphaeris  
et dicitur quod  
planeta sunt in  
caelestibus sphaeris

Quod sola est quae planeta est non uniformem  
est autem sphaera magis sphaerica  
quam planetae, sicut est planeta non est sphaerica  
sed alius quodammodo sphaerica

**Critium quod accidit planetis est com- bustio**

Cometa est res in caelestibus sphaeris  
quae dicitur quod  
cometa sunt in  
caelestibus sphaeris  
et dicitur quod  
cometa sunt in  
caelestibus sphaeris

Cometa dicitur quod  
cometa sunt in  
caelestibus sphaeris  
et dicitur quod  
cometa sunt in  
caelestibus sphaeris

**Consideratio in quodam**

Plurimum quod planetae sunt  
in caelestibus sphaeris  
et dicitur quod  
planetae sunt in  
caelestibus sphaeris  
et dicitur quod  
planetae sunt in  
caelestibus sphaeris

Cometa dicitur quod  
cometa sunt in  
caelestibus sphaeris  
et dicitur quod  
cometa sunt in  
caelestibus sphaeris

**Cometa quod accidit planetis est latitudo**

Cometa dicitur quod  
cometa sunt in  
caelestibus sphaeris  
et dicitur quod  
cometa sunt in  
caelestibus sphaeris

Cometa dicitur quod  
cometa sunt in  
caelestibus sphaeris  
et dicitur quod  
cometa sunt in  
caelestibus sphaeris

Latitudo  
est quod  
dicitur in  
astrologia

Latitudo  
est quod  
dicitur in  
astrologia

Latitudo  
est quod  
dicitur in  
astrologia

Latitudo  
est quod  
dicitur in  
astrologia
