In Poland Today

Święty Wojciech Honored
At Site Of His Martyrdom

GDANSK (IC) — Catholic Church honored the memory of St. Adalbert. Great observances in his honor were held in the Sw. Wojciech (St. Adalbert) locality and parish in the vicinity of Gdansk.

St. Adalbert was the first Patron Saint of Poland, and for two years he has also been the Patron Saint of the Gdansk Diocese.

Religious Theatre Discussed
At Lublin Catholic University

LUBLIN (IC) — A session devoted to the problems of the religious theater was organized by the Commission for Studies on Catholic Literature.

THE LECTURES and discussions dealt with the historical and contemporary phenomena which together form the idea of the religious theater.

Weber Mothers Club Readies Installation

Mrs. Joseph Wajda, newly elected President of the Weber High School mothers' Club will take the oath of office at a special installation reception planned for Tuesday, June 6, at 7:30 p.m. in the school cafeteria.

The reception for the new administration is being headed by Mrs. Jerry Aniolowski and Mrs. James Rowe, Alumni Representatives.

JOAN E. GREENE
Publicity Chairman

Receives
10 Medals

KLENDALE, Ariz. — U.S. Air Force Major Joseph L. Lukaski, native of Dickson City, Pa., has been decorated with 10 military medals at Luke AFB, Ariz.

Major Lukaski was awarded the Distinguished Flying Cross (DFC) seven awards of the Air Medal and two awards of the U.S. Air Force Commendation Medal for action in Southeast Asia.

The major, an F-104 Starfighter pilot, received the DFC for heroism in military flight. He was cited for his outstanding skill, courage and determination in devastating air attacks against hostile positions.

He was awarded the Air Medals for his outstanding bravery and courage on successful and important missions under hazardous conditions.

Cultural Clubs Meet In June At Webster College

WASHINGTON (Sp.) — The national convention of the American Council of Polish Cultural Clubs (ACPPCC) will be held on the campus of Webster College here, June 14-18.

The Polish American Art Society of this city will host the convocation. One of the social features is a cruise around the Potomac River.

Reservations are now being accepted. Write: Mrs. Marian Korwin Rhodes, 301 "G" Street, S.W., Washington, D.C. 20024.

Space Research Aids Gas Range

NEW YORK (UPI) — The gas range, an early American development, has reached a new state — specifically, solid state.

A number of 1967 model gas ranges are equipped with solid state controls, which have evolved from sophisticated space research and have been applied to home equipment, the Gas Appliance Manufacturers Association reports.

The new controls have no parts that can wear out, thus they will last longer and require fewer service calls during the life of the range.

The first "range" built in the United States was introduced in the 1840s and consisted of a simple top burner, an iron ring filled with sand through which the gas was filtered and burned.

Safer Light Post

COLLEGE STATION, Tex. (UPI) — The car rounded the curve at 40 miles per hour and slammed into the steel light post. The post tumbled and the car escaped with minor scratches.

The collision was on Texas A and M University's test ground and the post was a new break-away type being developed.

Dr. Thomas C. Edwards said the posts include special slip joints that hold up against wind and storms but give way when hit by a vehicle.

Tolerance Grows

NEW YORK (UPI) — More Christians would vote for a Jew for President now than would have in 1952, according to Gallup polls sponsored by the Catholic Digest.

In 1952, 57 per cent of the Catholics and 31 per cent of the Protestants asked "Would you as soon vote for a Jew for President of the U.S. as for someone of your own religion?"

CAPITOL HILL RECEPTION: Mr. Wally Urman, President, PNA Council 203, Washington, D.C., is shown handing over a check contributed by the friends of the Alliance College to Dr. Henry J. Parcinski, President, Alliance College.

Once Upon A Staircase

By Helen D. Bielakiewicz

Once upon a staircase
There sat a little boy,
Who had put one possession
And it was called a toy.

Take Health Precautions Before Traveling Abroad

NEW YORK (UPI) — Better safe than sorry should be the watchword for Americans getting ready to travel to foreign lands.

Eyes Right For Driving

Here's Suzie Squint who left her sunglasses home. Glared at by the bright summer sun, she squinted to see the road.

TIMELY TOPICS

Scientists Ponder Use Of Natural Gas Fuels To Power Supersonic Aircraft

NEW YORK (CFN) — The energy in natural gas may one day hurl a half million pounds of aircraft and 300 passengers from continent to continent at speeds of 2,000 miles per hour.

As early as 1956, scientists of the National Aviation and Space Administration had begun the study of liquid methane (natural gas) as a propellant.

Liquefied natural gas is playing an increasingly important role in supplying U.S. needs. In New England, for example, a new LNG plant will begin operation this year.

parable fuels. Its boiling point is minus 259 degrees Fahrenheit and its freezing point is 296 degrees below zero.

Many technological advances will be required before LNG becomes a standard jet fuel.

The cryogenics manufacturers — the people who build the liquefying and handling equipment — indicated that liquefaction, transport and transfer of LNG presented no insurmountable problem.

The American Gas Association, sponsoring research in this field is adding to the knowledge that already has the capability of taking natural gas to any place in the world where ships, tank cars and tank trucks — and pipelines — can go.

Karłowska's Informative Process

PELPIN, Poland (IC) — The Informative Process of Mother Maria Karłowska, founder of the Congregation of Sisters Shepherdesses of Divine Providence has begun.

Yard Care In Comfort

Minneapolis (UPI) — Fifty cents of every dollar spent by U.S. consumers on power mowers in 1966 was spent on rider or tractor models, according to a producer of powered turf- and yard-care equipment.

AIR APPARENT—Judy Sherwin, Clean Air Queen for the 60th Air Pollution Control Conference in Cleveland June 11-16, changes the glass filter in a dust sampler which measures airborne solids.
