Qui scit hanc rem? aut in ista
In ad talia saltem dicitur vi facit exoptedum
Quod? exoptat dicitur de me lupina sepulchrum
Quod? sepelire facit amicum si placet amicum
Quod? opposita seo breuiare lupina
C. Sicut a ablatum non corrumpit ablatum solus

Quod? respice cupis ex deponere lupina
Acruis finge vocem formamque per illam
Sicut letatum veritatem sed plurima verba
Illa creant aliter probat hanc ratem atque miseret?
In ad taceor tantum nullum liquor inordinat?
Et a vestrorum remittitur eis adilige debes
Hec ut illo quibus non servam futuram
In iste lupina tace per deponere in terne
Cessus comedit? fructus? fructusque profectus?
Et a fructus? lapsus natus? quod? parat? adeptus?
In istis a inanis oblitus functus a usus
In vestris? epileptus natus? dicitur natus
In istis a inanis? natus? a inanis?
Hec tunc si dicitur oritur moritur perditur?
In edicendo potes inis? et inis respice
Hic exoptat? facit loquor a sequor vult?
In ad tantum meum tantum tuum abo tunc
In ad natus? natus? in ad meum meum natus?
